

Mixed Content Document

This document mixes headings, body paragraphs, bullet lists, and code blocks to stress-test text extraction and structure preservation.

1. Introduction

PDF text extraction quality varies significantly between engines. Key dimensions: character accuracy, reading order, page number tracking, and handling of non-Unicode encodings.

```
def extract(pdf_bytes):  
    doc = parse(pdf_bytes)  
    for page in doc.pages:  
        yield page.text
```
